

**Alltddu Road Widening Scheme**

**Client**

Ceredigion  
County Council

**Location**

Tregaron  
Ceredigion

**Date**

2006

The works consisted of widening an existing carriageway to relieve pressure on an unstable verge. The length of the scheme was in excess of 300m

- Excavation and disposal of material into a local disused quarry.
- Formation of a new batter cut into the rock.
- Diversion of the existing BT fibre-optic services to enable the realignment of the carriageway.
- Installation of a new drainage system along the length of the works, inclusive of manholes and gullies.
- The construction of a temporary road to divert traffic around the working area.
- Full road construction of over 300m of carriageway including markings and signings.
- Landscaping and fencing works
