

Gwar Cwm Slope Stabilisation Works

Client

Ceredigion
County Council

Location

Tre'r Ddol,
Talybont
Ceredigion

Date

2014

The works consisted of the stabilisation of a sheer slope which supports an existing highway. Soil nails were used to stabilise the slope and gabion baskets installed to support the existing highway.

- Excavation to formation for gabion baskets
- Installation of soil nails to support the sheer slope.
- Installation of gabion baskets inclusive of soil nails to support.
- Installation of wire netting to protect and retain the slope from further erosion.
- Landscaping and fencing works
