

**Aberystwyth Equine Centre – Indoor Arena**

**Client**

Aberystwyth University

**Location**

Aberystwyth Ceredigion

**Date**

2015

The works involved the refurbishment of the existing indoor arena. A new Combi-one wax riding surface was installed. TTS worked closely with the Client to ensure minimal disruption was caused to the livery yard which was operational throughout the project.

- Excavation to formation levels.
- Laying and compacting sub-base to create level surface.
- Installation of new Combi-one wax riding surface.
- External landscaping works
