

Pant Road Widening Scheme

Client

Ceredigion
County Council

Location

Pant,
Llangrannog
Ceredigion

Date

2014

The works involved widening the existing carriageway to a suitable width for two way traffic. The scheme was over 800m long and included the construction of new embankments, drainage and surfacing works.

- Tree felling.
- Construction of new embankments.
- Permanent diversion of BT and Welsh Water Apparatus.
- Installation of new drainage system and large soak-away for surface water.
- Construction of new hedge-banks and planting works.
- Installation of new kerb lines and entrances.
- Construction of new ancient stone pillars.
- Resurfacing works
- Landscaping and fencing work
